

MAY 2008
PRESS RELEASE

Macroview has achieved the First and the Only Cisco Master Unified Communications Specialization in Hong Kong and Macau !!

We are delighted to announce that Macroview Telecom Limited is the First and the Only Cisco Gold Certified Partner that has achieved the Cisco Master Unified Communications Specialization in Hong Kong and Macau. This specialization recognizes Macroview as having fulfilled the stringent Cisco program prerequisites to deploy and support highly sophisticated applications-based Cisco Unified Communications solutions for Customers.

"We are proud to have achieved this status of Master Unified Communications Specialization of Cisco," said Victor Share, chief executive officer of Macroview Telecom, "This is again reflecting our corporate focus on maintaining technology and solution leaderships in the industry, and translating them into successful project deployments for our Customers."

The complexity of rapidly emerging unified communications technologies require devoted system integrators like Macroview Telecom to achieve the highest level of certified skills possible to help clients best utilize these technologies in their diverse commercial environments. To achieve the Master Specialization in Unified Communications, Cisco channel partners must first attain the Advanced Unified Communications Specialization and then meet an extra series of strict pre-qualification requirements in three areas : technology capabilities, lifecycle services offering and sales expertise.

"To equip ourselves with the necessary expertise and capabilities, we have invested a huge sum of time and resources in our equipment laboratory, manpower training, application development and customization skills, as well as project management and quality assurance processes." said Victor. "This certification serves an objective piece of evidence to Macroview's expertise, as well as our determination to provide professional quality service to our Customers and Vendors."

More information regarding the Master Unified Communications Specialization can be found at:
